These Indians were very much opposed to my taking the census but I held a council of their head men and they finally agreed that it was all right as Washington wanted it and no further opposition was offered. I also secured the services of the Lieutenant Governor to accompany our physician in taking the same and I believe that the above is an accurate census of all the Zunis.

Very respectfully,

William J. Oliver.

December 1, 1915.

Commissioner of Indian Affairs,
Washington, D. C.

S i r:

Replying to Office letter of October 26, 1915, and post card of November 24, 1915, I have to state that it has been impossible for me to submit a census roll of the Indians under my charge for the reason that heretofore my office help has not been sufficient to admit taking the time necessary to take the census and prepare the roll. It has been some time since a roll was submitted and it would now be necessary to retake the census. The taking of a census on this reservation is a very difficult matter. The Indians live in the pueblo and intermix and each Indian has different names, and in taking the census you are likely to meet the same Indian two or three times and each time he will have a different name. They are very superstitious regarding the taking of a census. Notwithstanding this, I can have a proper census taken and a roll prepared but it will take some time and it will be necessary for me to have additional help for the purpose. Besides having a person properly qualified to act as enumerator, who should be paid at the rate of

Commissioner -2.

Ed.-Stats.

\$2.50 per day, it will also be necessary to have an interpreter at \$1.50 per day.

The physician acted as enumerator at a previous taking of the census, but he cannot do so now as his time is fully occupied with his work. Besides, following his work the measles broke out; the Indians laid the blame on the physician and it was with difficulty he secured their former confidence in him.

If the Office will give me a clerk for this work and will authorize the employment of an interpreter I will undertake to have prepared a very reliable census roll.

Press of office and school work has been the cause of my delay in answering Office letter above referred to.

Very respectfully,

Superintendent.

Sir:

I am transmitting herewith the census and narrative section of the annual report for the fiscal year, 1916.

Account of the crush of work these papers were delayed in the preparation. The census is up to date but is not arranged in alphabetical order. We will make an effort to so arrange it some time this year.

Very respectfully,
